

## Technowrap Bantam 2900 Vacuum Press

### Technical Specifications

Effective Width	1.33m
Effective Length	2.9m
Vacuum	65m <sup>3</sup> /hr
Heaters	45kW
Machine Dimensions Single Table L X W X H	3.1m x 1.6m x 1.1m

### Advantages

PLC	Yes
Heaters	Infra Red
Precision Temperature Feedback	Yes, via infra red sensor
Secure Clamping Mechanism	Yes
Unique Controlled Wrapping Process	Yes
Manual Back Up	Yes
Observation Windows for Direct Monitoring	Yes
No Pre Heat Required	Yes
Low Total Power Consumption (Kwh/day)	Yes
Vacuum can operate independently of heaters and while table is outside of machine	Yes

Ultra Low Maintenance	Yes
Short Time Cycle	Yes

## Features and Benefits

Membrane	Optional Extra
Available in Single and Double Table	Single Table Only
Built in Over Temperature Alarm	Yes
Membraneless Operation when Pressing PVC film	Yes
Versatile – Flats, 3D Lamination, Veneers, Foils, Paper, Transfer foils and Curve forming and wrapping	Yes
Maximum Part Height	160mm
Stainless Steel Heater Bank	Yes
