

Technowrap Plus 2900 Vacuum Press

Technical Specifications	Technowrap Plus 2900 Vacuum Press
--------------------------	-----------------------------------

Effective Width	1.33m
Effective Length	2.9m
Vacuum	65m ³ /hr
Heaters	45kW
Machine Dimensions Single Table L X W x B	3.6m x 3.7m x 1.8m
Machine Dimensions Double Table L X W x B	3.6m x 5.7m x 1.8m

Advantages	Technowrap Plus 2900 Vacuum Press
------------	-----------------------------------

PC Controlled	Yes, TeamViewer for online back-up
Heaters	Infra Red
Precision Temperature Feedback	Yes, PC interface
Secure Clamping Mechanism	Yes
Unique Controlled Wrapping Process	Unlimited wrapping processes
Manual Back Up	Yes

Side Lifting Gates for Curves	Yes
Observation Windows for Direct Monitoring	Yes
No Pre Heat Required	Yes
Low Total Power Consumption (Kwh/day)	Yes
Vacuum can operate independently of heaters and while table is outside of machine	Yes
Ultra Low Maintenance	Yes
Short Time Cycle	Yes

Features and Benefits	Technowrap Plus 2900 Vacuum Press
------------------------------	--

Membrane	One Included
Available in Single and Double Table	Yes
Built in Over Temperature Alarm	Yes
Membraneless Operation when Pressing PVC film	Yes
Versatile – Flats, 3D Lamination, Veneers, Foils, Paper, Transfer foils and Curve forming and wrapping	Yes
Maximum Part Height	250mm
Stainless Steel Heater Bank	Yes

Study: Veneer Curves

Bathroom: PVC Curves

Kitchen: High Gloss

Sample: PVC Wrap
